EDUCATION WEEK - MATHS INFORMATION SESSION

Thank you to the parents who attended the maths information session on Education Week Open Day. We were pleased to see so many of you come along. Mr Murphy talked about how every student, and every voice is important to hear in our mathematics classrooms. He showed how our teachers purposefully select teaching strategies so that all students can contribute, build confidence in themselves and learn in the classroom.

Attached to the newsletter are some ideas for how you might support your child's mathematics learning at home.

Continued over.....

Some parents asked for more information about the content covered each year in mathematics, so that they could help their child/ren at home. The school executive will consider the best way to provide this information to parents.

In the meantime, here is a link to the curriculum documents from the NSW Education Standards Authority with detail of the content for every stage. Please remember that the teacher makes professional decisions about what content to cover, when to cover it and for how long, in response to the needs of students and in collaboration with their teaching colleagues.
